

Beckton & Royal Docks Children's Centre Tip Sheet

Spider Web Discovery Basket

This is a fine motor skill activity to help babies explore with their hands and fingers.

What's needed?

String/wool

Laundry Basket

Baby Toys

How to set up this activity?

Grab a laundry basket (or any basket that has holes in it), thread through the string/wool in any design. Make sure to securely tie the string at the end to prevent your baby's hand getting tangled. Once it is secure, place the toys in the basket and allow your baby to explore! Simple and fun.
