

Beckton & Royal Docks Children's Centre Tip Sheet

Little Champions-Homemade bubbles

You can just use water and washing up liquid/liquid soap, but the addition of glycerin holds the solution together to make better bubbles.

You will need:

- 1 cup of water
- 2 tablespoons glycerin
- 4 tablespoons washing up liquid/liquid soap

Simply stir together until everything is dissolved.

For something different try colored bubbles

Regular bubbles have a nice sheen of their own but adding a few drops of liquid food coloring to the mixture makes a difference.

You will need:

- 1 cup soap flakes (you can grate a bar of soap if you do not have soap flakes)
- Warm water, enough to dissolve the soap
- Liquid food coloring

Dissolve soap in warm water. Mix in the food coloring until you get the shade you want.
