

Beckton & Royal Docks Children's Centre Tip Sheet

Story telling ideas

Start off by using a picture book and making up a story from there, be creative.

Involve your child in the story. Whether you make them the main character in the tale or just ask them to contribute sound effects (What sounds do cows make?), let your child help with the storytelling.

You could introduce puppets to encourage ideas, and help build up confidence, retelling stories that they know quite well.

Another great idea would be to create your own story bag or box.

You place a mixture of items in either a bag or box and encourage your child to pick something, you'll then involve the item into the story. You could go on to having themed bags/boxes.
